Migrate your MS-Access application to the cloud

Product Information

Migrate your MS-Access application to the cloud

We specialize in converting your Microsoft Access database to the cloud or private cloud

Turn your MS Access application to a Web App

What you will receive from us is a modern website/ web app with the same functionality as your current MS-Access database, the only difference !! it is online and can be used anywhere on any device with following operating system running Windows/Apple/Linux and Raspberry.

You can add, edit and delete data from anywhere in the world. the only thing you need is a internet connection.

Antrow software has converted over 620 MS-Access databases to the cloud from customer all over the world. With our long time experience and our own developed conversion tools (Anrow.net MS-Access webform usercontrols™) we ensure a fast and cost effective migration up to 70% faster and cheaper than our competitors.

What is your key benefits

1. We convert all your existing data to a Microsoft SQL server/DB2/My-SQL server or Oracle server
2. Your MS-Access Forms, Reports, Export will be converted one to one into a new modern web design
3. Your new web application can be hosted in the Cloud or in your local network
4. You can control the users access to the database with our standard user rights assignments module (Free of charge)
5. No distribution of software or Office licenses needed anymore
6. The converted website can run on any device (Windows/Android/Mac/Phone/IPhone/Tablet)
7. You can access your data and reports anywhere and anytime
8. The migrated website also supports touch screens

For more information please go to our FAQ section or see some of our converted MS-Access databases here
