

What about Security, can everybody access my application on the internet af a conversion?

Product Information

What about Security, can everybody access my application on the internet af a conversion?

No, including in our migration service is a user access framework, from where you can control what forms the user have access to. Also is all date Encrypted with SSL.

We have stand 3 level of Security.

- 1) User,
- 2) content manager
- 3) System Administrator
