

Product Information

COMFORT KUNDENDISPLAY®

Customer information inexpensive and easy

Antrow software has developed a content management system for the operation and content control for up to 1,000 Digital Signage client displays. Our software simplify and ensure a cost-effectively operation of your digital signage environment. With COMFORT display you can send content (images, texts, films) wireless to any type of device with the IOS (Apple™), Windows™, SMART™ TV or Andriod™ operating system installed.

In our CMS editor you create content playlist for each device who can be scheduled as needed.

Our solution is fully scalable - from 1 display to up 1000 monitors in several branches.

Our COMFORT KUNDENDISPLAY® can bought as a cloud solution or installed locally.

Some of the posible slide type you can show at your devices.
